

«A place where knowledge is created»

As a leading business university, we set global standards for research and teaching by promoting integrative thought, responsible action and an entrepreneurial spirit of innovation in business and society.

## Research Associate / Ph.D. Student in Risk Management

The Institute of Insurance Economics at the University of St. Gallen seeks to hire Research Associates (PhD Position). These positions should be of particular interest to candidates interested in pursuing an academic-oriented PhD at the Chair for Risk Management and Insurance (see [www.ivw.unisg.ch/hs](http://www.ivw.unisg.ch/hs) for details). The researcher will benefit from hands-on experience with research methods and opportunities to work closely with national and international corporate partners and potential references at the world's leading academic institutions.

This position provides excellent opportunities to develop valuable analytic skills and gain deep insights into diverse areas of risk management and insurance that are applicable to a broad spectrum of exciting career paths. The Institute of Insurance Economics (I.VW-HSG) is known for its innovative research and executive education activities in the field of insurance and financial services and, as a reliable partner and part of the University of St. Gallen, promotes the dialogue between science and practice. Founded in 1949, the institute with its approximately 35 employees cooperates on an interdisciplinary basis with a number of institutes and universities in Switzerland and abroad. You can find more information about us and our institute on our website: [www.ivw.unisg.ch](http://www.ivw.unisg.ch).

Review of applications will begin immediately and continue until the positions are filled. We are looking forward to your application. Candidates for this position are expected to enroll in the PhD program at the University of St. Gallen, with the doctoral supervisor being Professor Dr. Hato Schmeiser.

The candidate should fulfil the following qualifications:

- Outstanding Master's degree in business/management or a related field from a leading university or business school
- Strong interest in risk management and insurance
- Demonstrated suitability to work on analytical problems
- Previous research experience in an insurance-related environment is a plus
- Can work collaboratively in a team environment
- Communicates effectively in English

Before you submit your application, please ensure that your degree matches the requirements to enroll in a PhD program at the University of St. Gallen. Please send a single PDF file including your CV, a short motivation letter, transcript of grades, and an exemplary piece of academic writing (your Master thesis or a term paper) in your application to [Hato.Schmeiser@unisg.ch](mailto:Hato.Schmeiser@unisg.ch).

For further information, please contact Professor Dr. Hato Schmeiser via Email or phone (0041 71 224 3650).
